Item 8.01 Other Events.

Becton, Dickinson and Company ("BD") previously reported that the Director of the Environmental Protection Division of the Georgia Department of Natural Resources (the “EPD”) had filed a complaint and motion for temporary restraining order in Newton County Superior Court in Covington, Georgia against BD, seeking to enjoin BD from continuing sterilization operations at its Covington facility until BD implements certain voluntary emission control improvements. BD worked proactively with the EPD to resolve the issue and protect product availability for patients, and on October 28, 2019, BD entered into an agreement with the EPD, which was approved by the Newton County Superior Court, that resolved the litigation. Under the terms of the settlement, BD will voluntarily suspend sterilization operations at its Covington facility from October 30 to November 6, 2019. When BD resumes sterilization operations at the Covington facility on November 7, 2019, BD will operate the facility at a reduced capacity and implement certain operational modifications to further reduce ethylene oxide emissions at the facility. BD also agreed not to expand operations at its Madison, Georgia facility, and to continue implementing the additional emission controls at its Covington and Madison facilities that BD voluntarily committed to in August 2019. Based on the terms of the settlement and BD’s business continuity efforts, BD does not expect a material impact to its results of operations.
